Whitepaper NFT's (English)

NFT'S PROJECT PERRO ADOPTADO

For responsible ownership and adoption

Perro adoptado

Project to promote the responsible adoption of dogs

V. 1.0

April 11, 2022

Spain

https://www.perroadoptado.com

The NFT's project of Perro Adoptado is created by professional canine educators, our intention through the different collections is to spread truthful information about responsible dog ownership, as well as promote responsible adoption, in addition to helping animal protectors or shelters that collaborate with us.

IT IS NOT A SPECULATIVE PROJECT, it is not expected that the nfts will appreciate in value over time, it is a project to help.

OUR MISSION

We want to reach as many people as possible, whether or not they are aware of responsible dog ownership and adoption. It is true that social networks help to spread a message, but there are people who could share the message who would never follow us on social networks.

For example, there are people who would never join a classic car club, but who would go to see them if a classic car concentration coincides in the town where they are spending the summer.

That is our intention when we enter the NFT world, to reach people who surely do share the message, but would not enter our social networks first.

NFT'S COLLECTIONS

The main dog of each collection has its own story and is up for adoption or happily adopted.

Each NFT has a bone in the upper right part, this tells us which shelters 35% of the profits will go to.

If new protectors or shelters are added later, new collections will be created and this "whitepaper" will be updated.

TOKENOMICS

35% - Animal shelter specified by the nft (in €)*
25% - Marketing to publicize the project
25% - Creation of new content on awareness and animal welfare
15% - Management and feasibility of the project

* Since the vast majority of animal shelters do not have blockchain wallets, donations will be transferred to EUR to make a bank transfer or through PayPal and will be shown on our social networks.
